

Zihao Wang

OBJECTIVE

To pursue access to the state-of-art technology in an exceptional scientific institution where I could expand my scope of knowledge and utilize my skills for scientific research, along with adequate preparation for studying abroad in the near future.

SCIENTIFIC EXPERIENCE

-Innovation project: Conducting observations utilizing facilities on Zuo Di Jiang Observatory

(2022.10 to 2023.10)

Mentors: Zhiyuan Li Ping Zhou Zhixin Peng

- Responsible for recording night sky background and monitoring meteors.
- Conducting long-term monitoring of seeing and cloudage.
- Designing and producing a meteor spectrum shooting device.
- Designing a website for displaying the statistics results.

-Research training project: Galaxies automatic clustering and parameters estimating utilizing the method of SOM

(2023.6 to present)

Mentor: Tao Wang

- Utilizing the method of SOM to achieve galaxies automatic categorizing.
- Utilizing manifold learning to estimate physical parameters of galaxies.
- Combining this method with SED fitting techniques.

ACADEMIC RECORD

<u>Major</u>	<u>INSTITUTION</u>	<u>Grade</u>	<u>Rank</u>
Astrophysics	Nanjing University	4.527	1/42

SKILLS

- Proficiency in programming (Python and C++)
- Proficiency in Linux command
- Proficiency in relevant software (Ciao, Heasoft, eSASS and Iraf)
- Proficiency in language (CET4:656 CET6:604)

SELECTED AWARDS AND HONORS

2023.11	People's Scholarship (the first prize)	Nanjing University
2023.11	Fundamental Subjects Scholarship	Nanjing University
2022.11	People's Scholarship (the first prize)	Nanjing University
2022.11	Fundamental Subjects Scholarship	Nanjing University
2022.12	National Astronomical Observatory Scholarship	NAOC

PERSONAL PROFILE

Date of Birth: 2002/12/03
Cell number: +86-13309023239
